1 December 1992

Civilian Personnel
LOGISTICS TRAINING, EDUCATION, AND DEVELOPMENT SYSTEM (LOGTEDS)

FORWARD

The Directorate of Logistics Management, USACE requires each career program to structure a USACE wide plan to train and develop its personnel from entry level to senior management positions. Civilian career paths should be clearly mapped and should serve as useful references for all grade levels.

The plan referred to as LOGTEDS contained in this pamphlet serves the Logistics Management Career Program. It provides a single training and development program that covers all careerists in Logistics Functions. This pamphlet describes the formal training that builds solid logistics backgrounds. It encourages careerists to seek a variety of assignments that will prepare them for high-level logistics positions.

Supervisors, appropriate activity career program managers, and all careerists should discuss this plan and put it into operation as soon as possible.

FOR THE COMMANDER:

WILLIAM D. BROWN
Colonel, Corps of Engineers
Chief of Staff
